# JOHN'S FAVORITES

## TURMERIC ALMOND MACADAMIA

This is John's favorite drink on the menu! It's just seven ingredients - turmeric, ginger, and honey in the turmeric concentrate, and almonds, macadamia nuts, dates, and water in the almond macadamia nut milk. It's great either hot or cold, and doesn't have any caffeine so it's good any time.

## BUSINESS & PLEASURE

A cheeky little flight of drinks, this is a good way to try a lot of what makes us, us. We split a double shot of espresso into two separate cups. The first, the business, is a straight up single shot of espresso, the second (the pleasure) is a shaken iced cappuccino made with our world famous almond macadamia nut milk, sweetened a little and served neat. It's sort of like us saying we can make delicious espresso, but coffee is delicious lots of ways too.

## FIZZY HOPPY TEA

Served alongside all of our espresso, it also makes for a delicious drink in its own right. Truly a tea that is both fizzy (carbonated for days) and hoppy (hopped with Citra hops), it's a drink that speaks for itself. Ask to try some, it's on tap!
